

Fashionista's STYLE HUNTER

It's not every day you see a real-live angel, with wings and a halo, nipping into the cathedral do to a bit of the Lord's work. But that's exactly what we saw, on a Friday afternoon. Not only does she look like a Gaultier Archangel Gabriel, she has worn cowboy boots to 'blend in' with the mortals. You wouldn't have believed us if we didn't take a picture!

A Fashionista-Outlet angel would be wearing a Rizal Dress Code white fur cape. Expect to be ushered past the queue at the gates of heaven.
